

[photographic thinking]

rebecca (marks) leopold

fall 2016 er shifts : thursdays 1 - 6pm

fridays 6-12am

e/o sunday 5 -12am

 • WB AF • DRIVE

why the context?

b/c future...

[photographic seeing + the decisive moment]

[Stephen Shore]

South of Klamath Falls, U.S. 97, Oregon, July 21, 1973

[Henri Caritier-Bresson]

Paris. Place de l'Europe.
Gare Saint Lazare. 1932.

[photographic thinking]

*Something about making, as opposed to taking a photograph.

[Gregory Crewdson]

Production Still from Summer from Beneath the Roses, 2007

[Gregory Crewdson]

Untitled (Trailer Park), Summer from Beneath the Roses, 2007

[Carrie Mae Weems]

Kitchen Table Series, 1990

[Carrie Mae Weems]

Kitchen Table Series, 1990

[Carrie Mae Weems]

Kitchen Table Series, 1990

[photographic thinking]

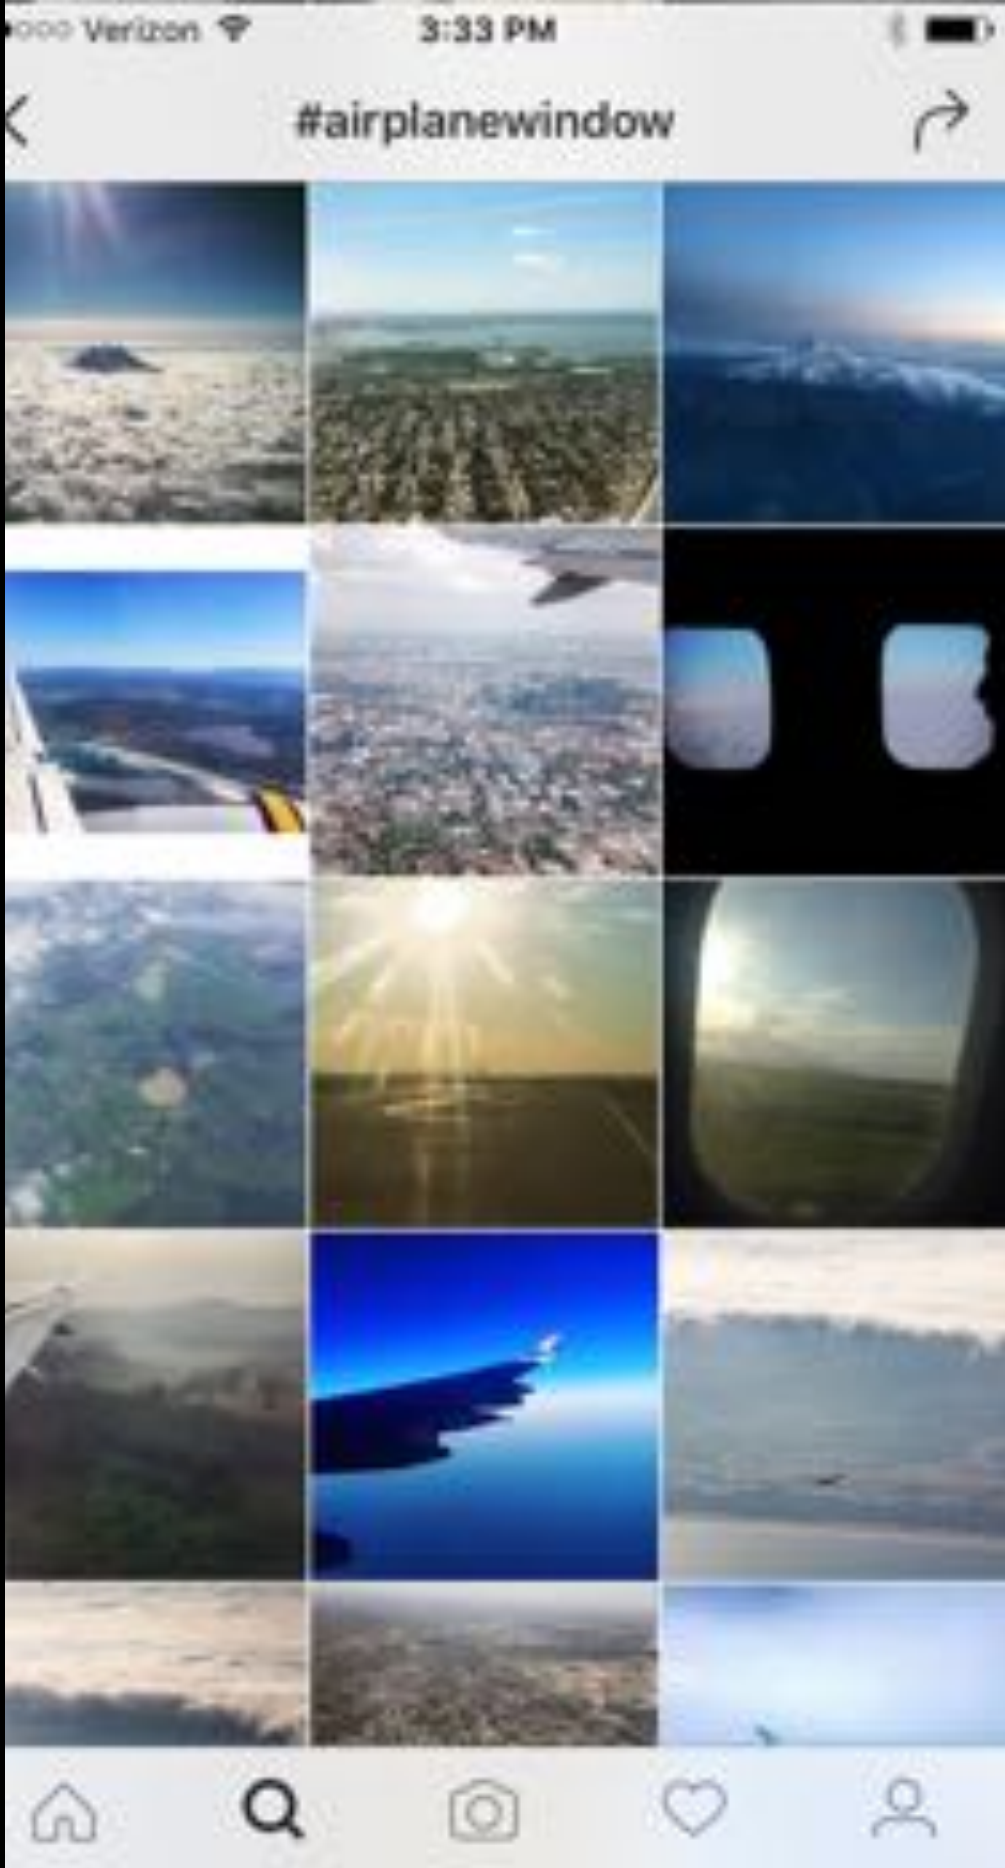

*Something about making, as opposed to taking a photograph.

**Something about always being able to take & share a photo & the perpetual awareness of that fact

iPhone 6 (s)

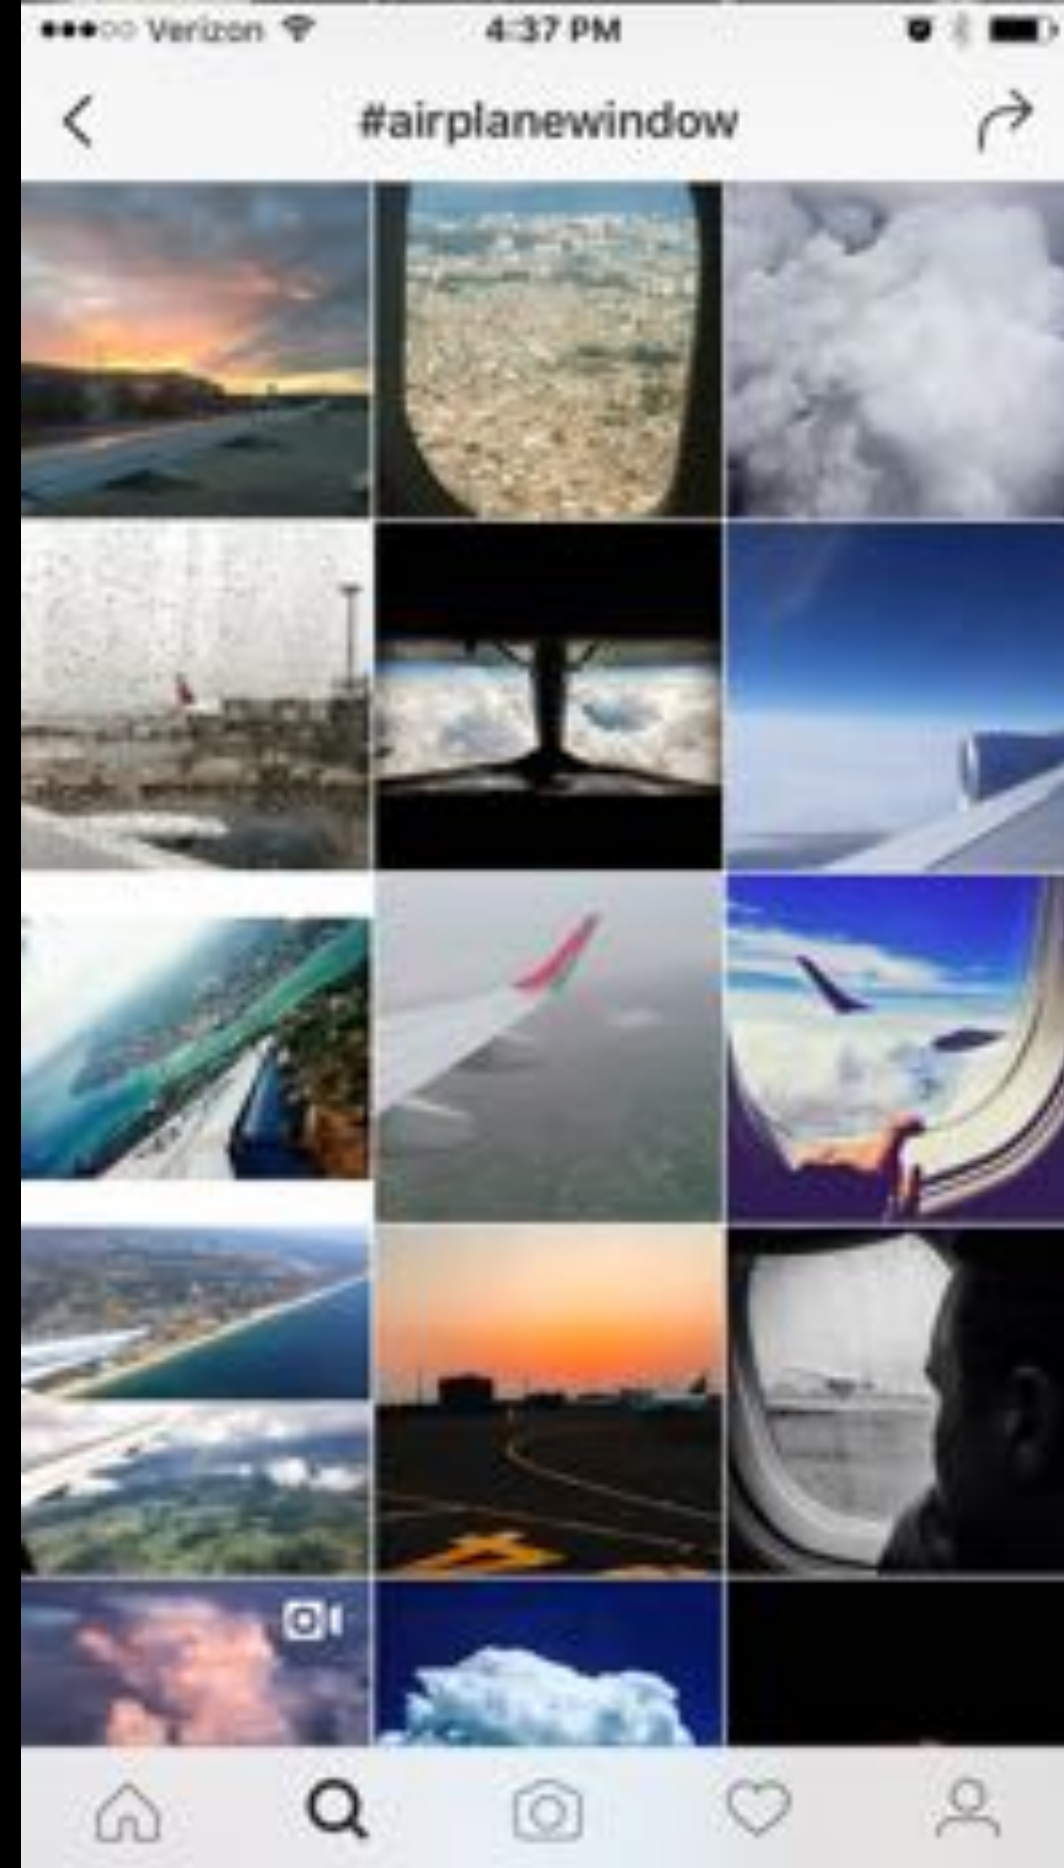

3D Touch. 12MP photos. 4K video. One powerful phone.

[William Eggleston]

Untitled (Glass on Plane),
1965-74

[point of view]

who && where are you?

[aperture & shutter speed]

Canon Mark III Manual

SLR == single lens release

bc:

Aperture && Shutter Speed == Exposure

Aperture && Shutter Speed == Exposure

Aperture == Amount of  |  allowed through lens

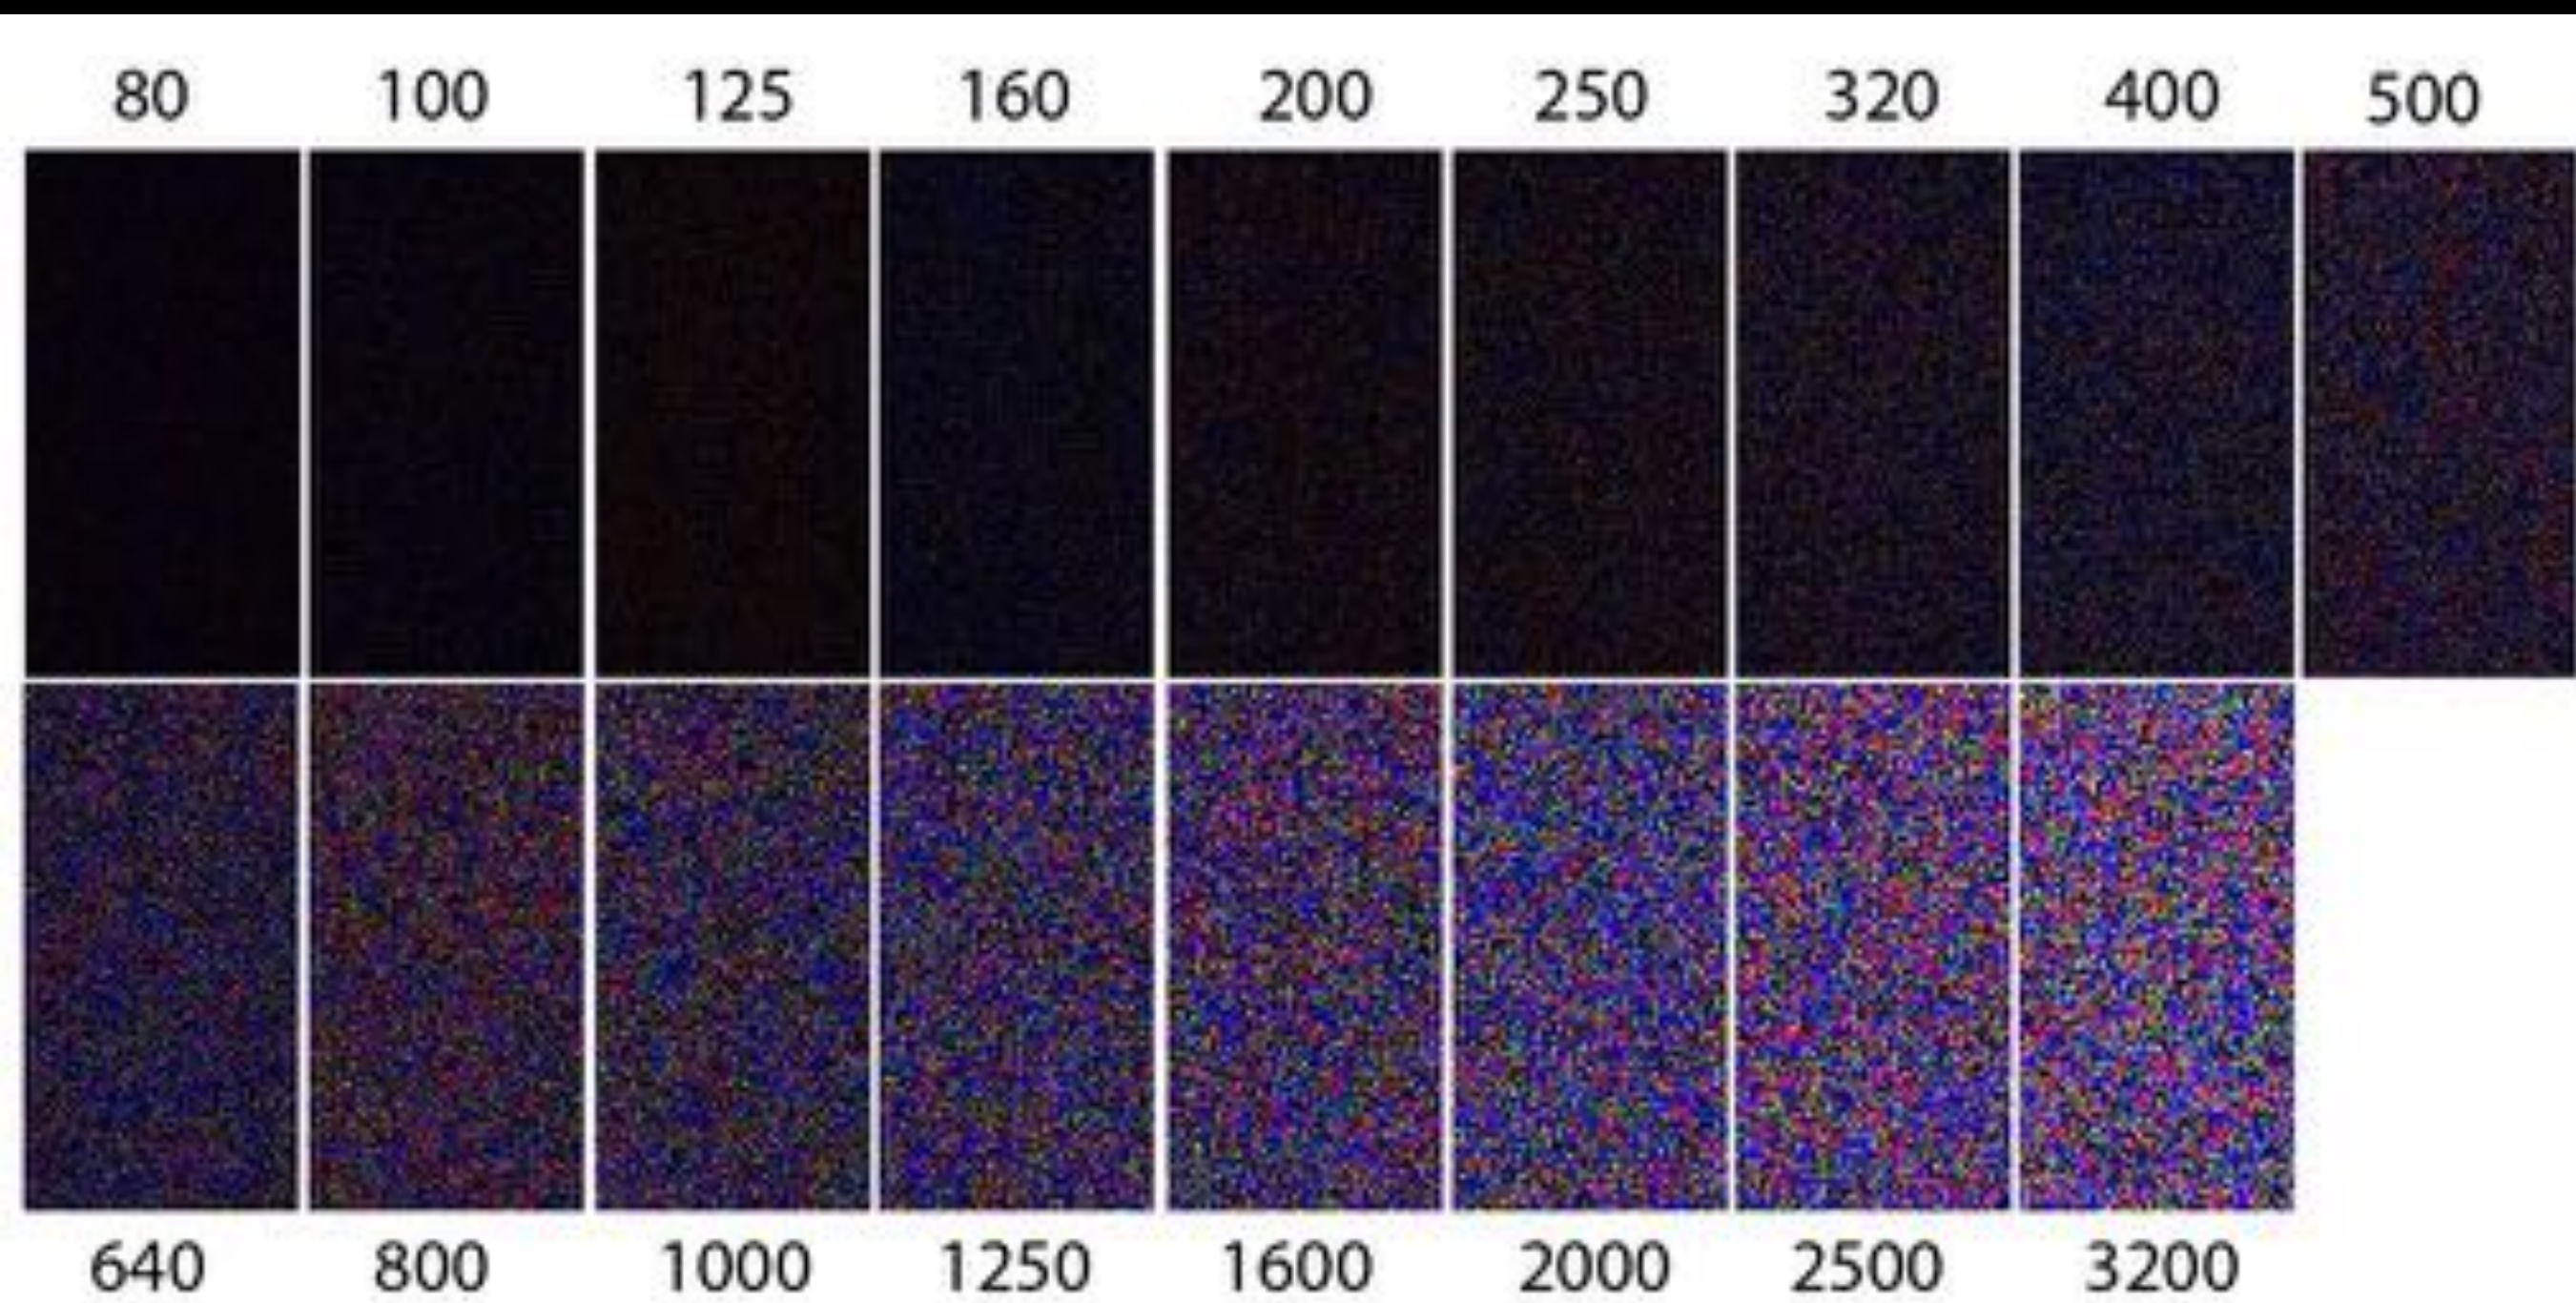

Aperture & Shutter Speed == Exposure

Aperture == Amount of  |  allowed through lens

Shutter == amount of  |  sensor sees  | 

ISO // ASA == sensor's sensitivity to  | 

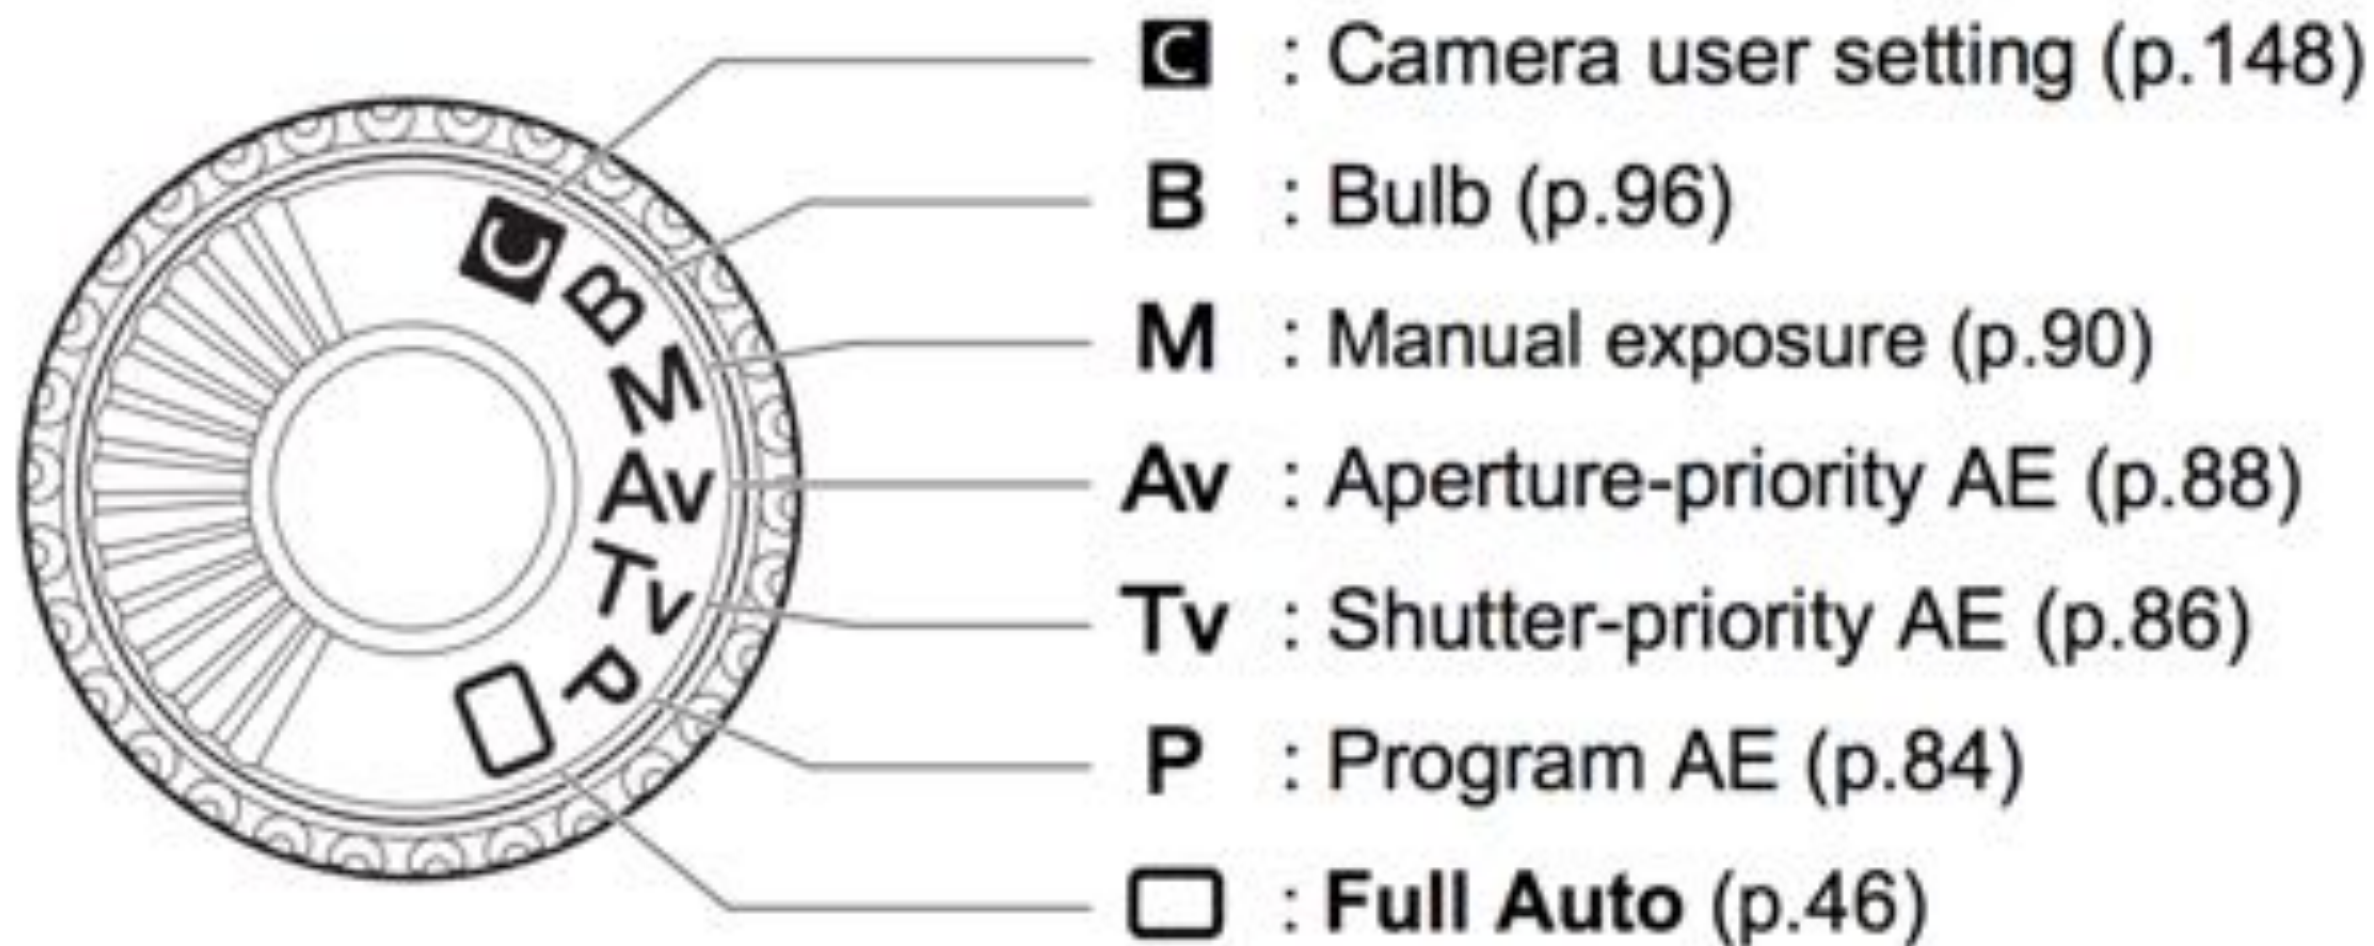

iso controls the amount of amount of noise.

good practice is to keep yr iso set to 400 & below.

Mode Dial

25 2.0 150 100 [58]

through the viewfinder

this is yr light meter

this is ALSO yr light meter

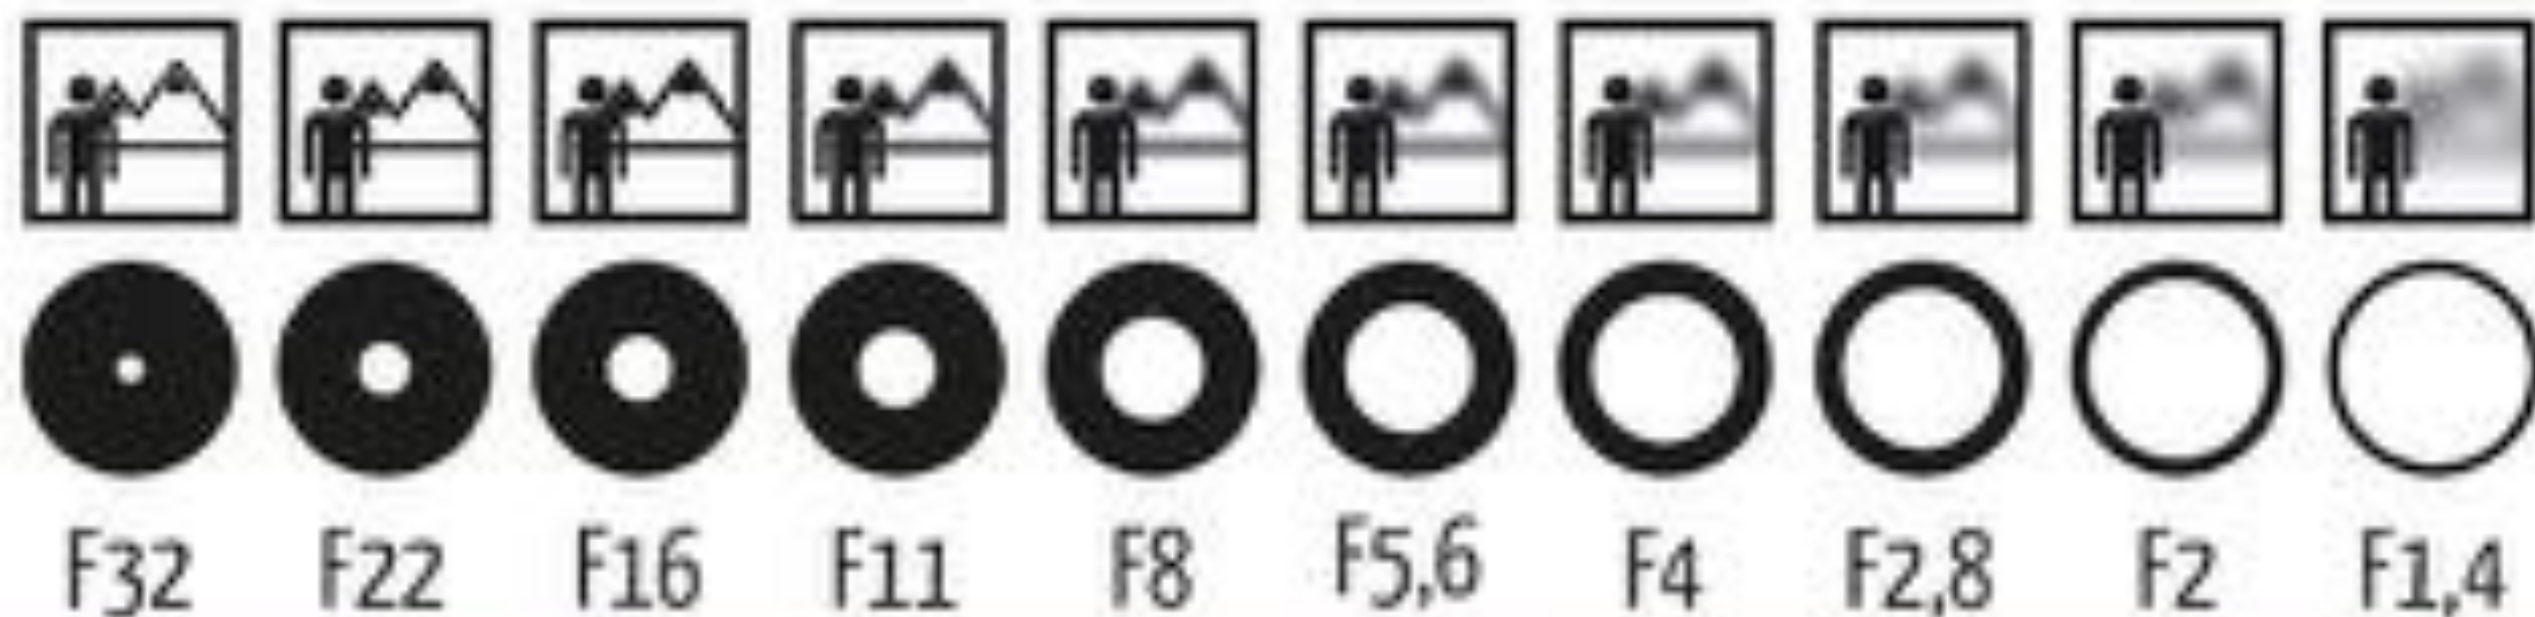

[manual mode]

shutter control

aperture control

[depth of field]

aperture priority

f/1.8

f/2.8

f/4.0

f/5.6

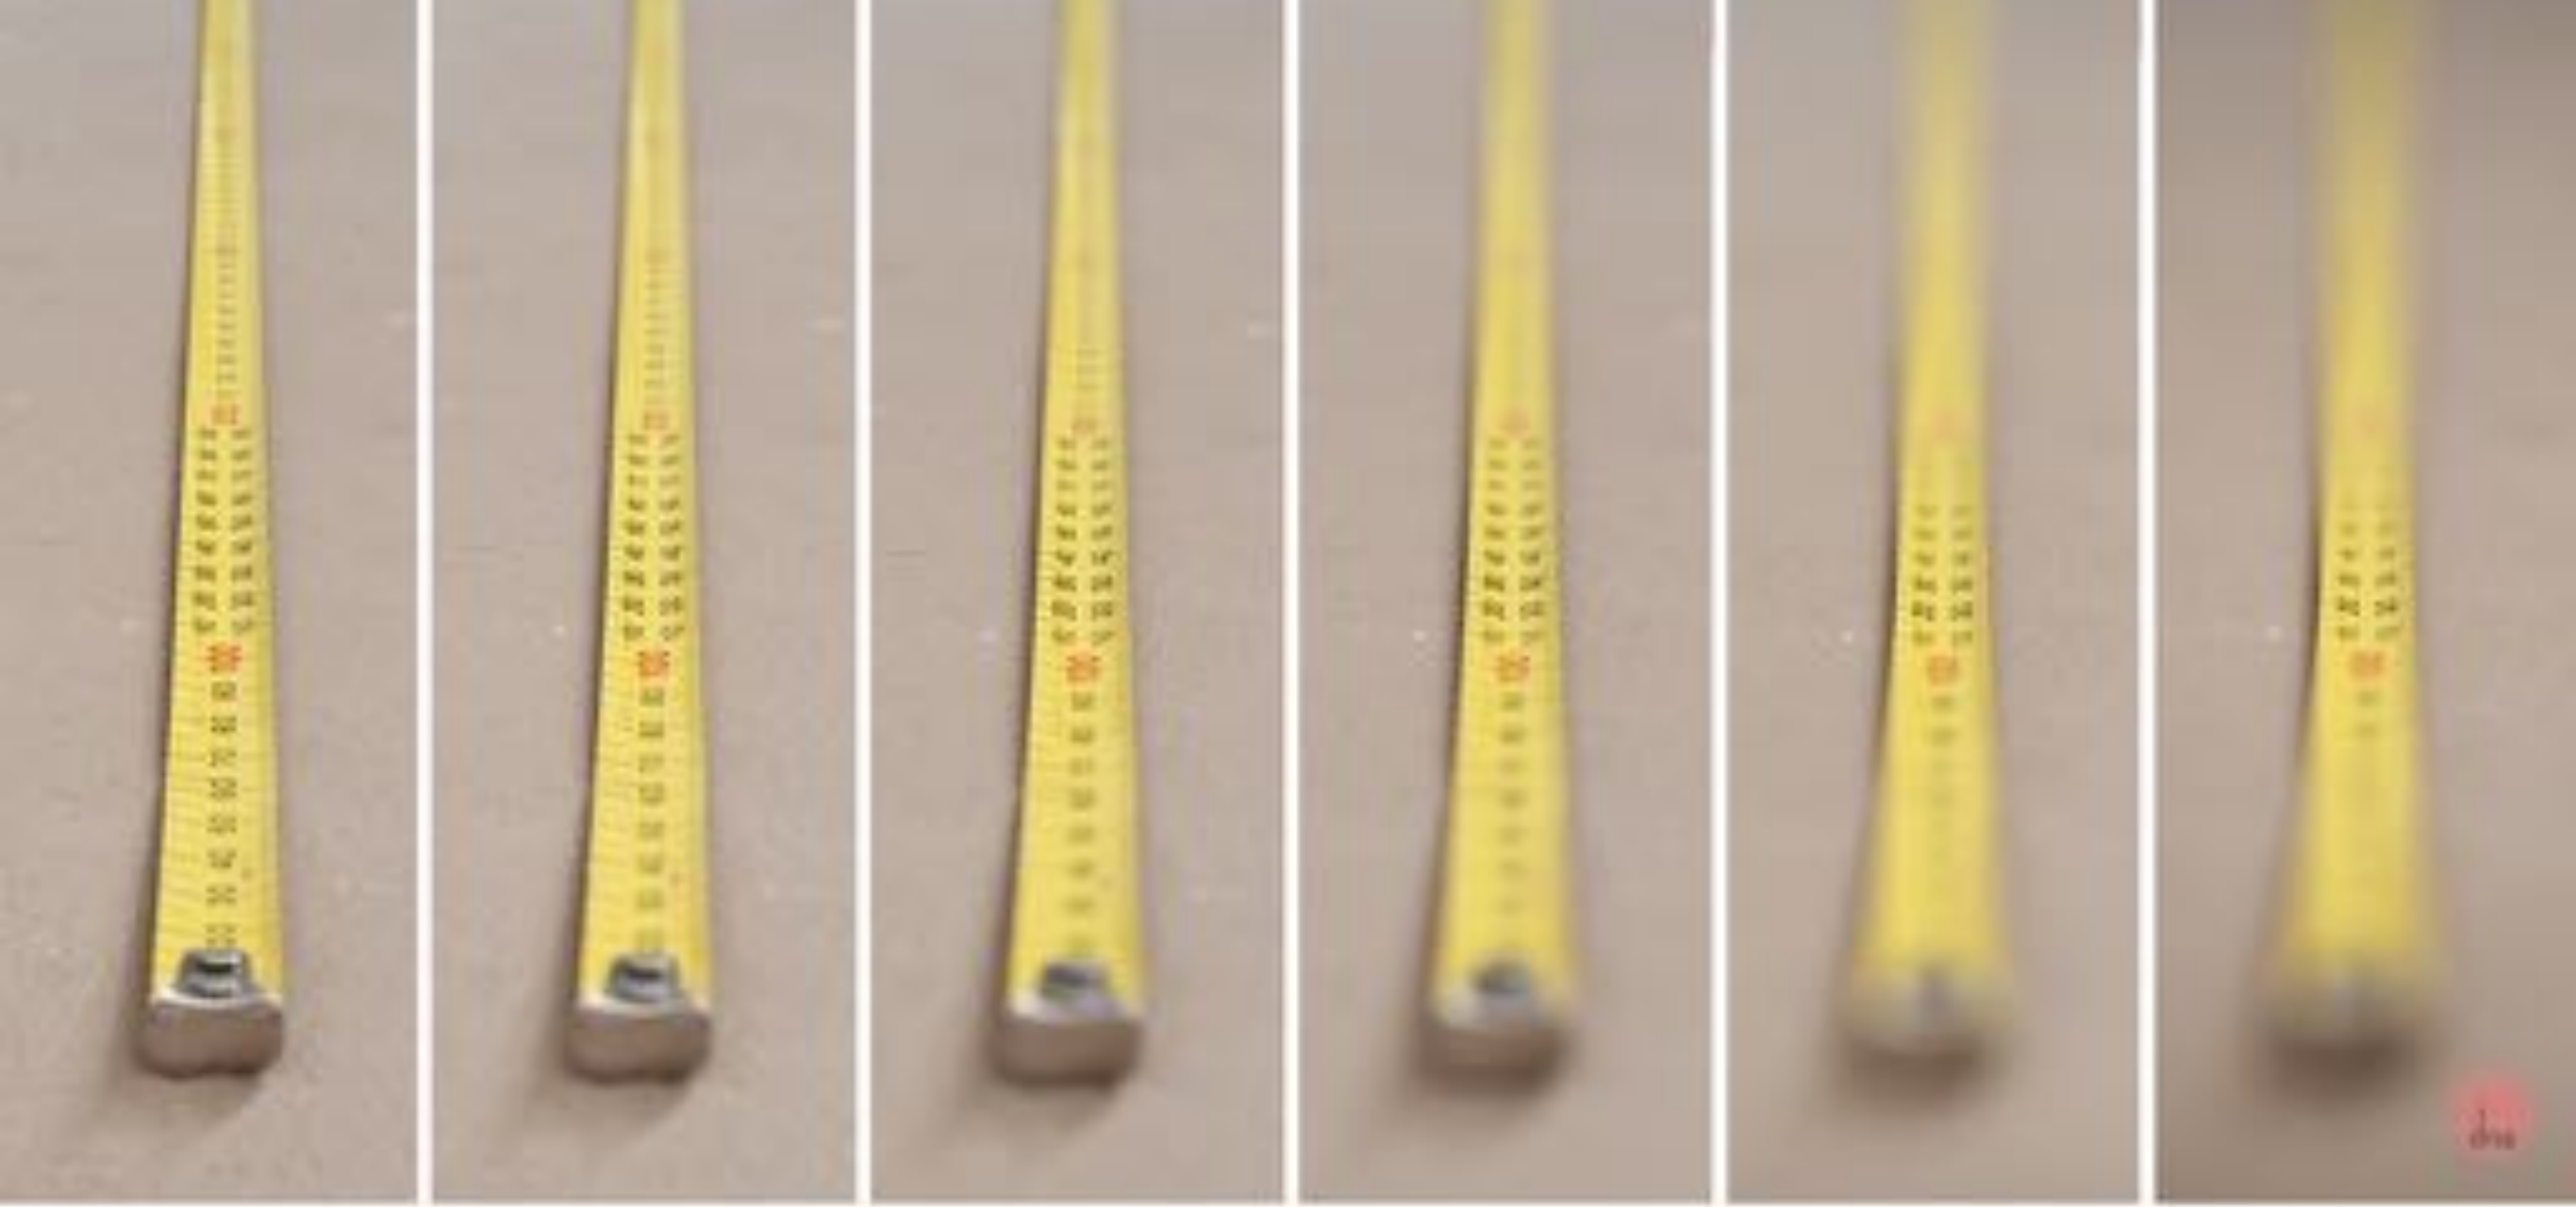

f/8

f/11

f/16

f/22

the smaller the FStop # - the less 🌞

F16

F10

F6.3

F3.5

F2

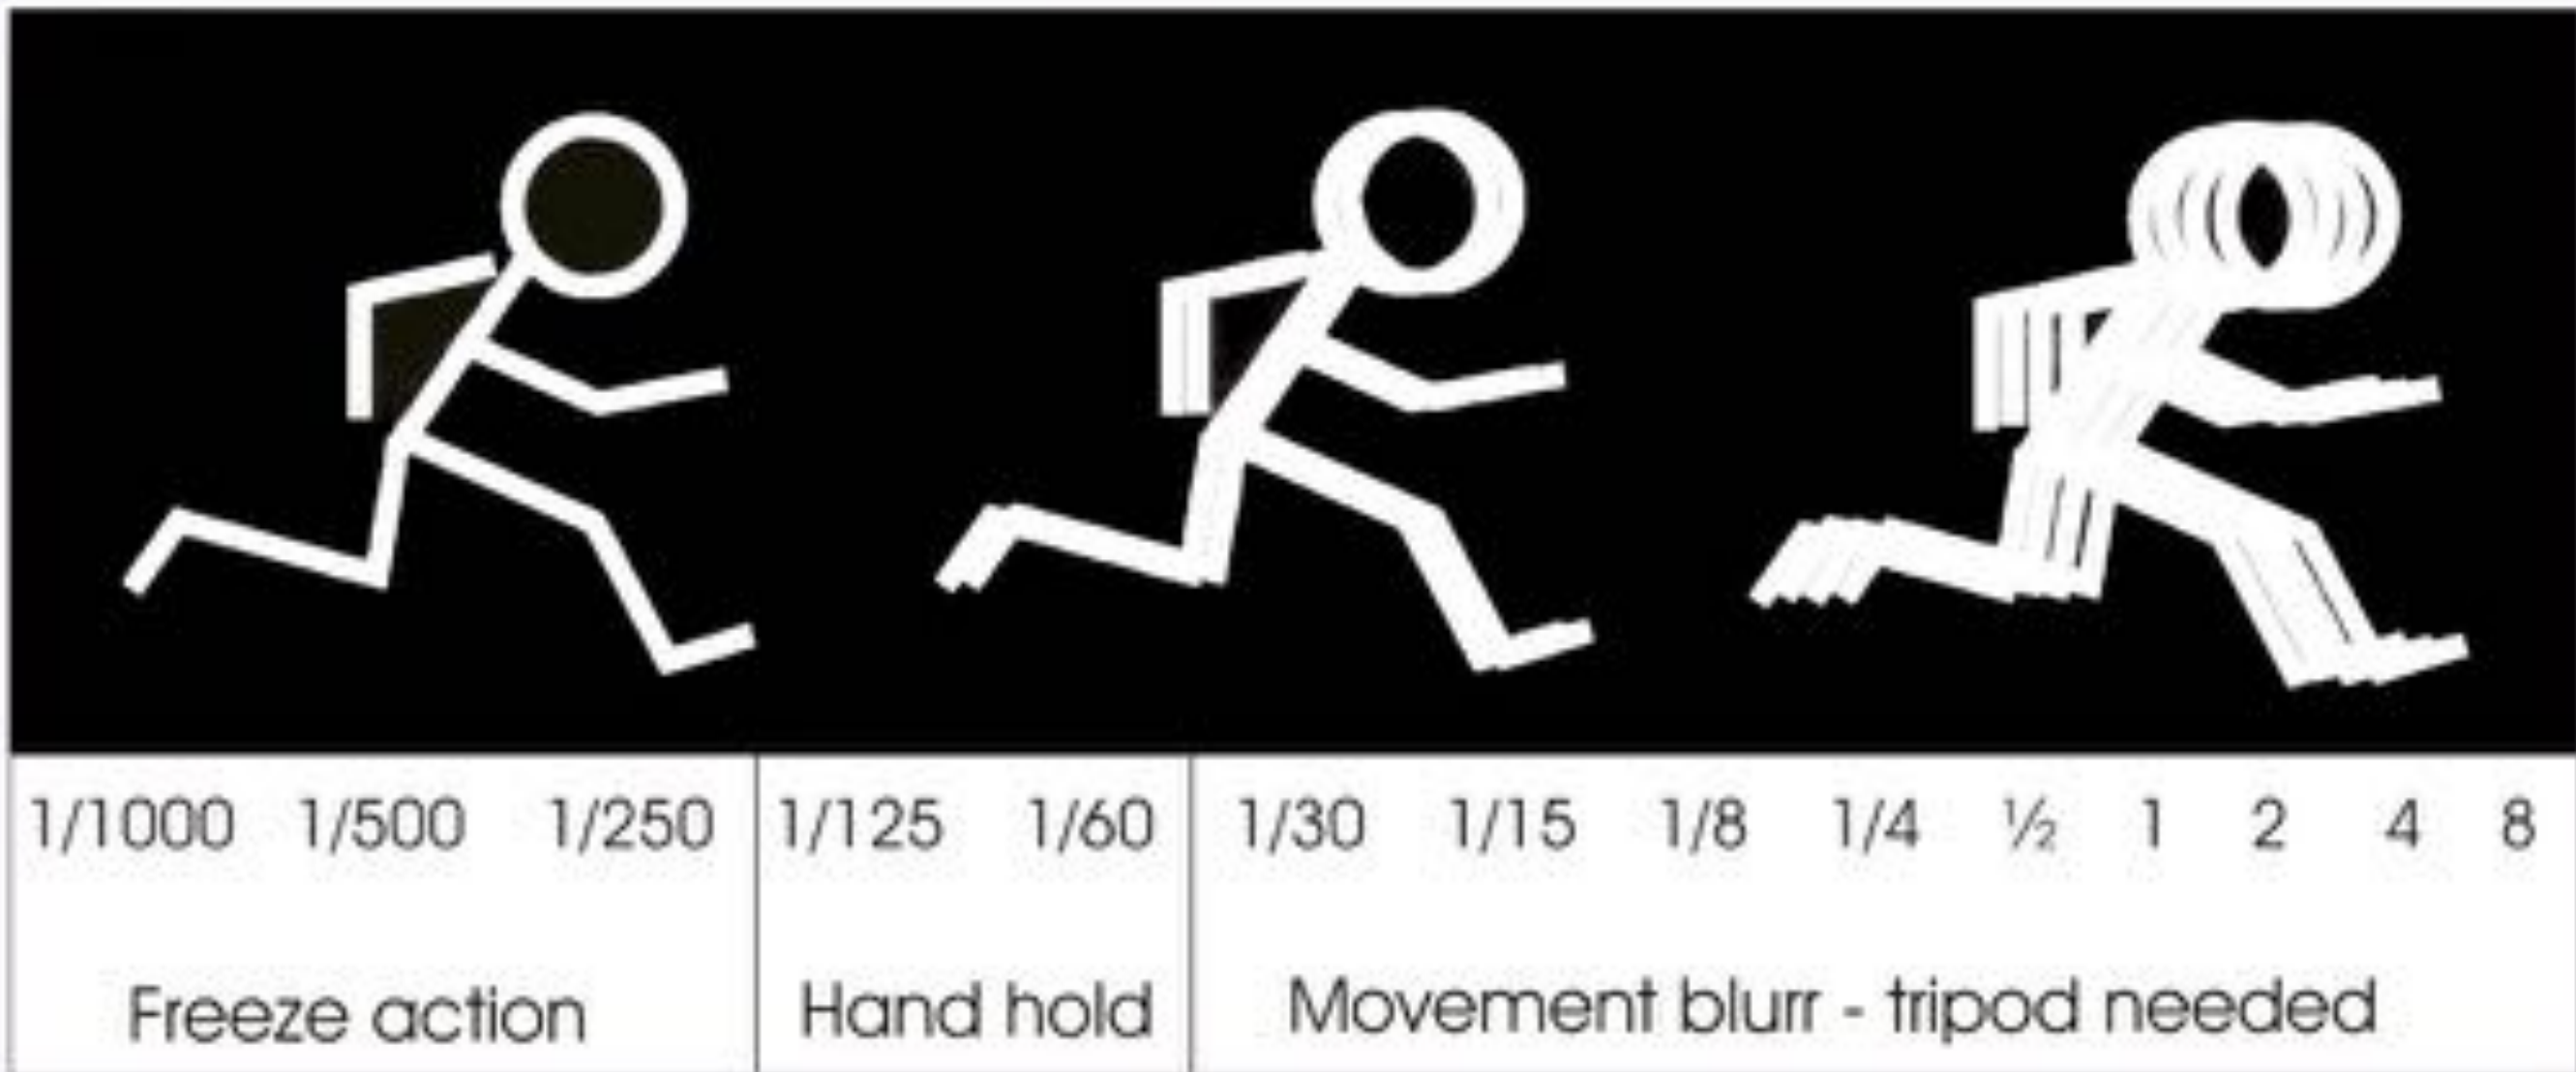

F1.4

&& the more information is in focus

[motion]

shutter priority

Shutter speed

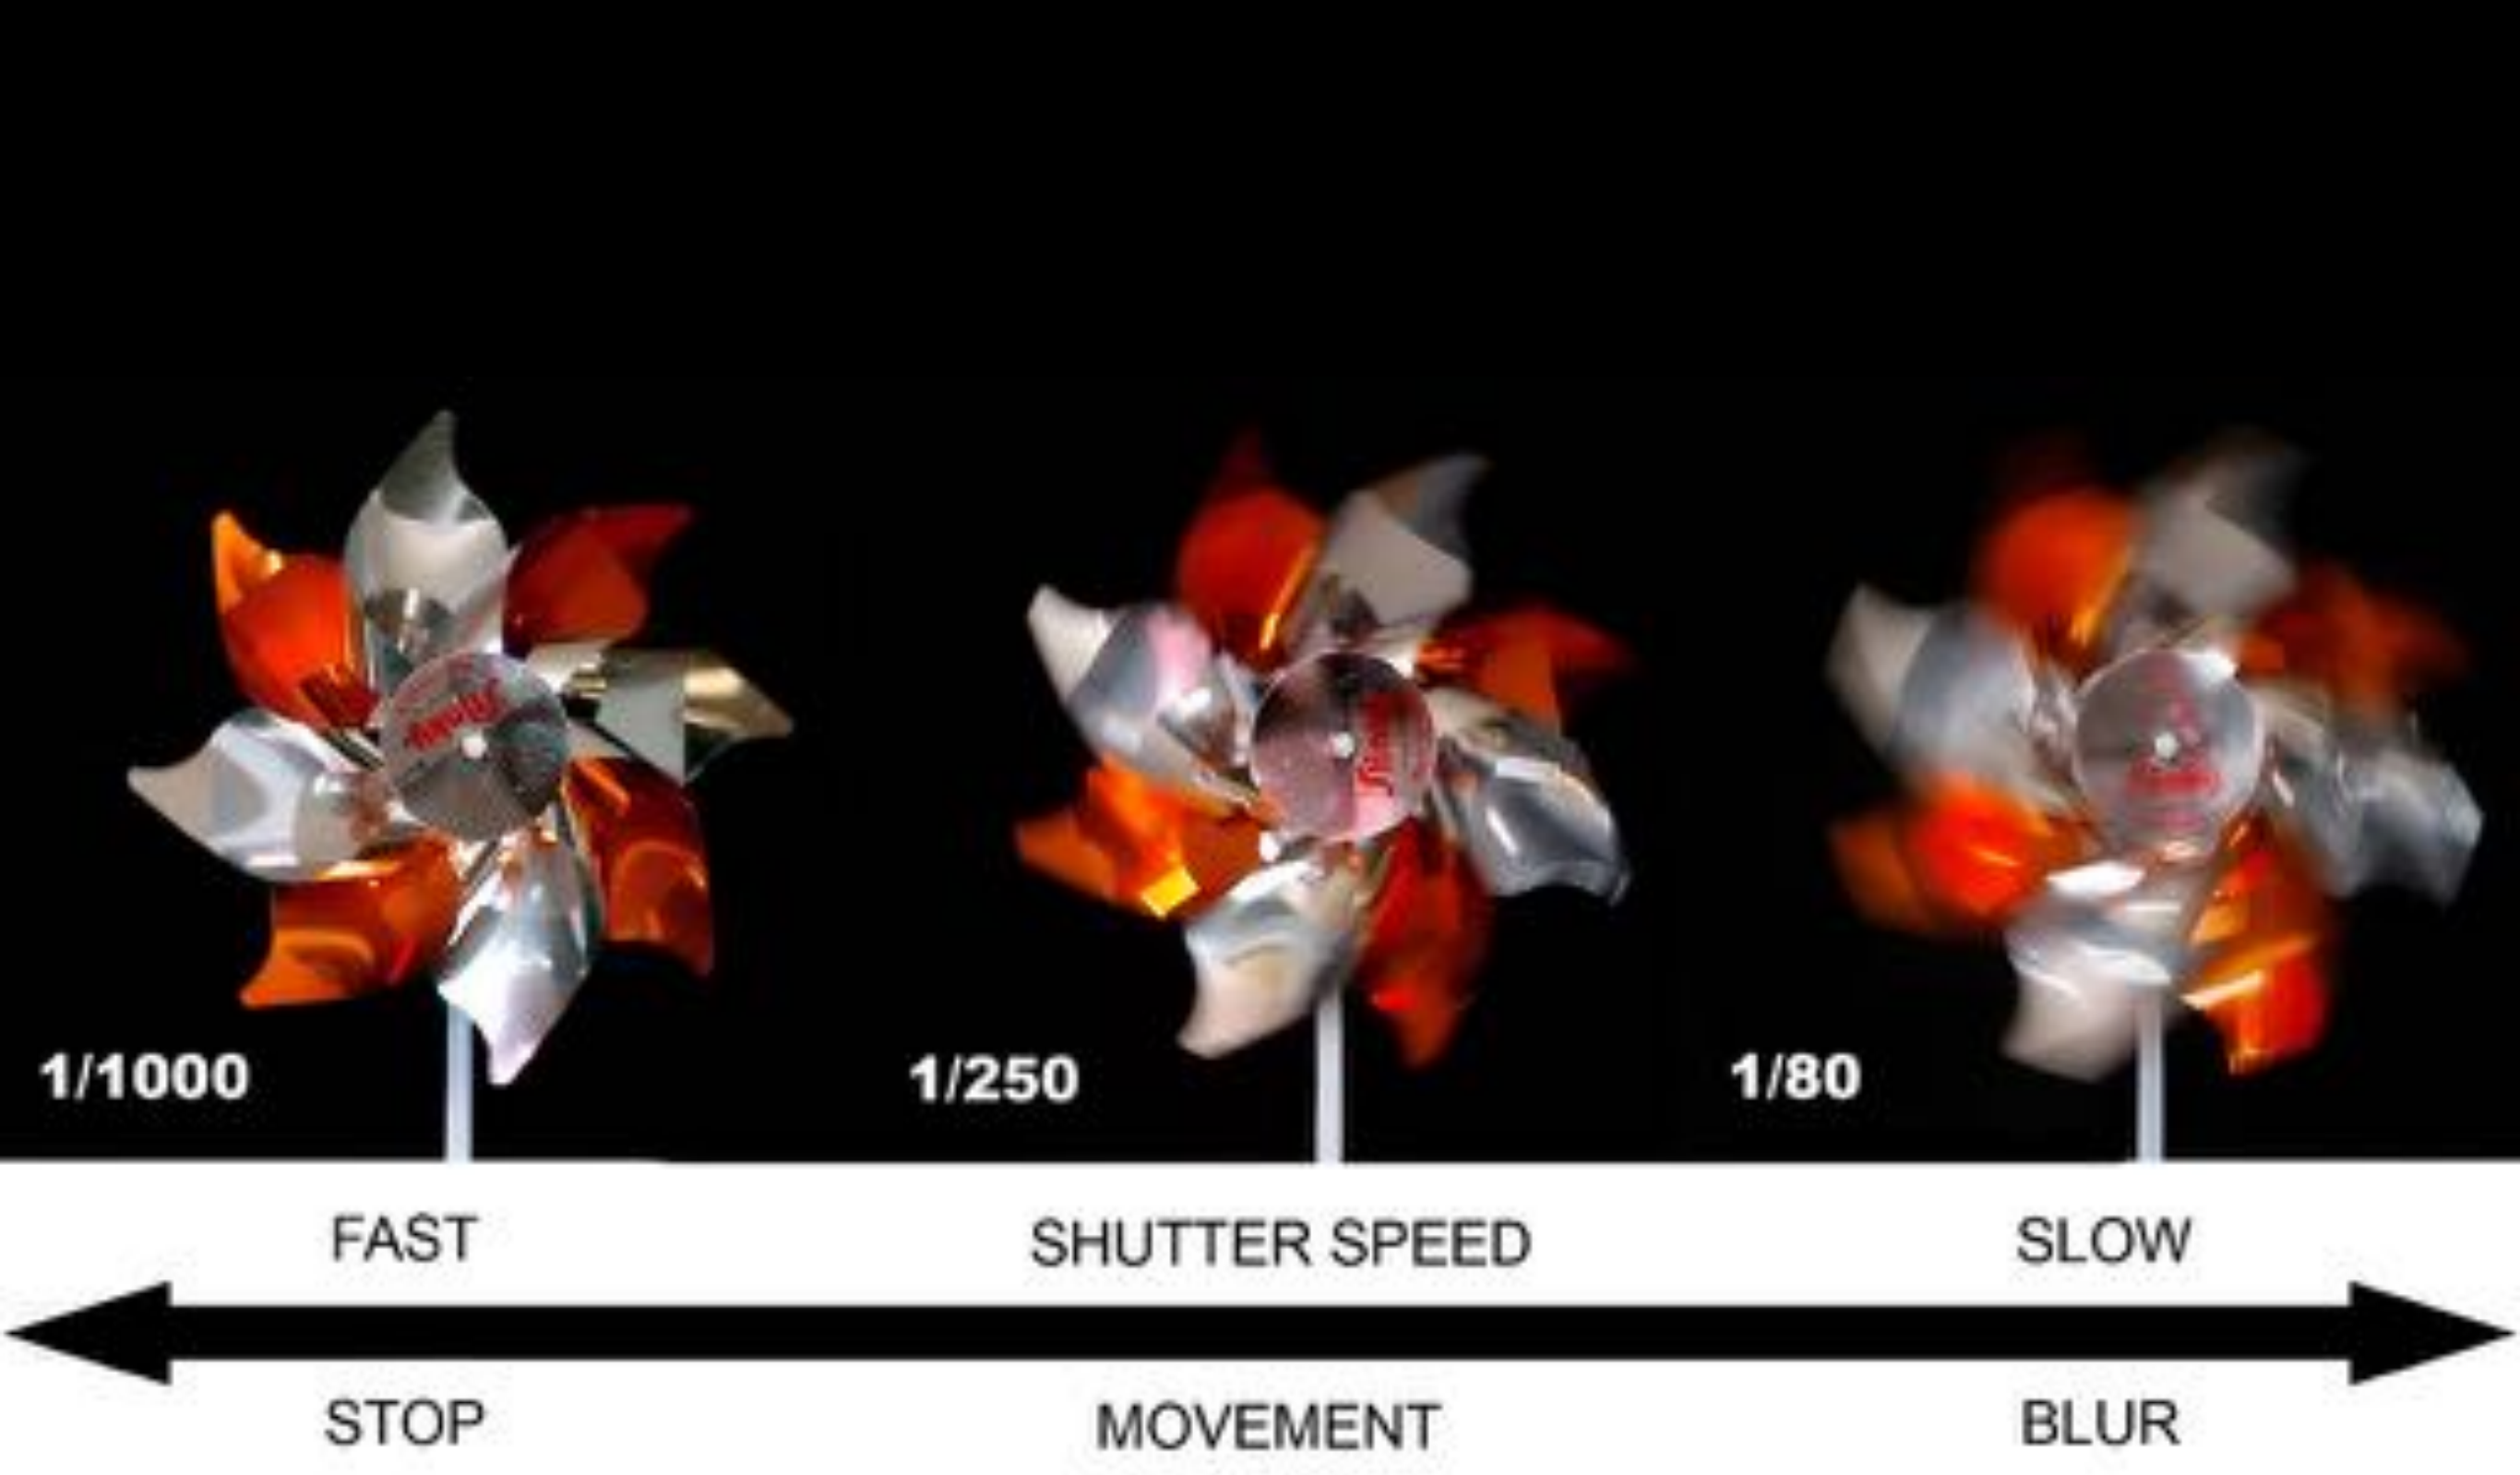

the higher the shutter speed #, the faster (🕒) the exposure

[Gordon Parks]

Ali Training in Miami, 1965

shutter controls movement

you can not hold a  still for longer than 1/60th second

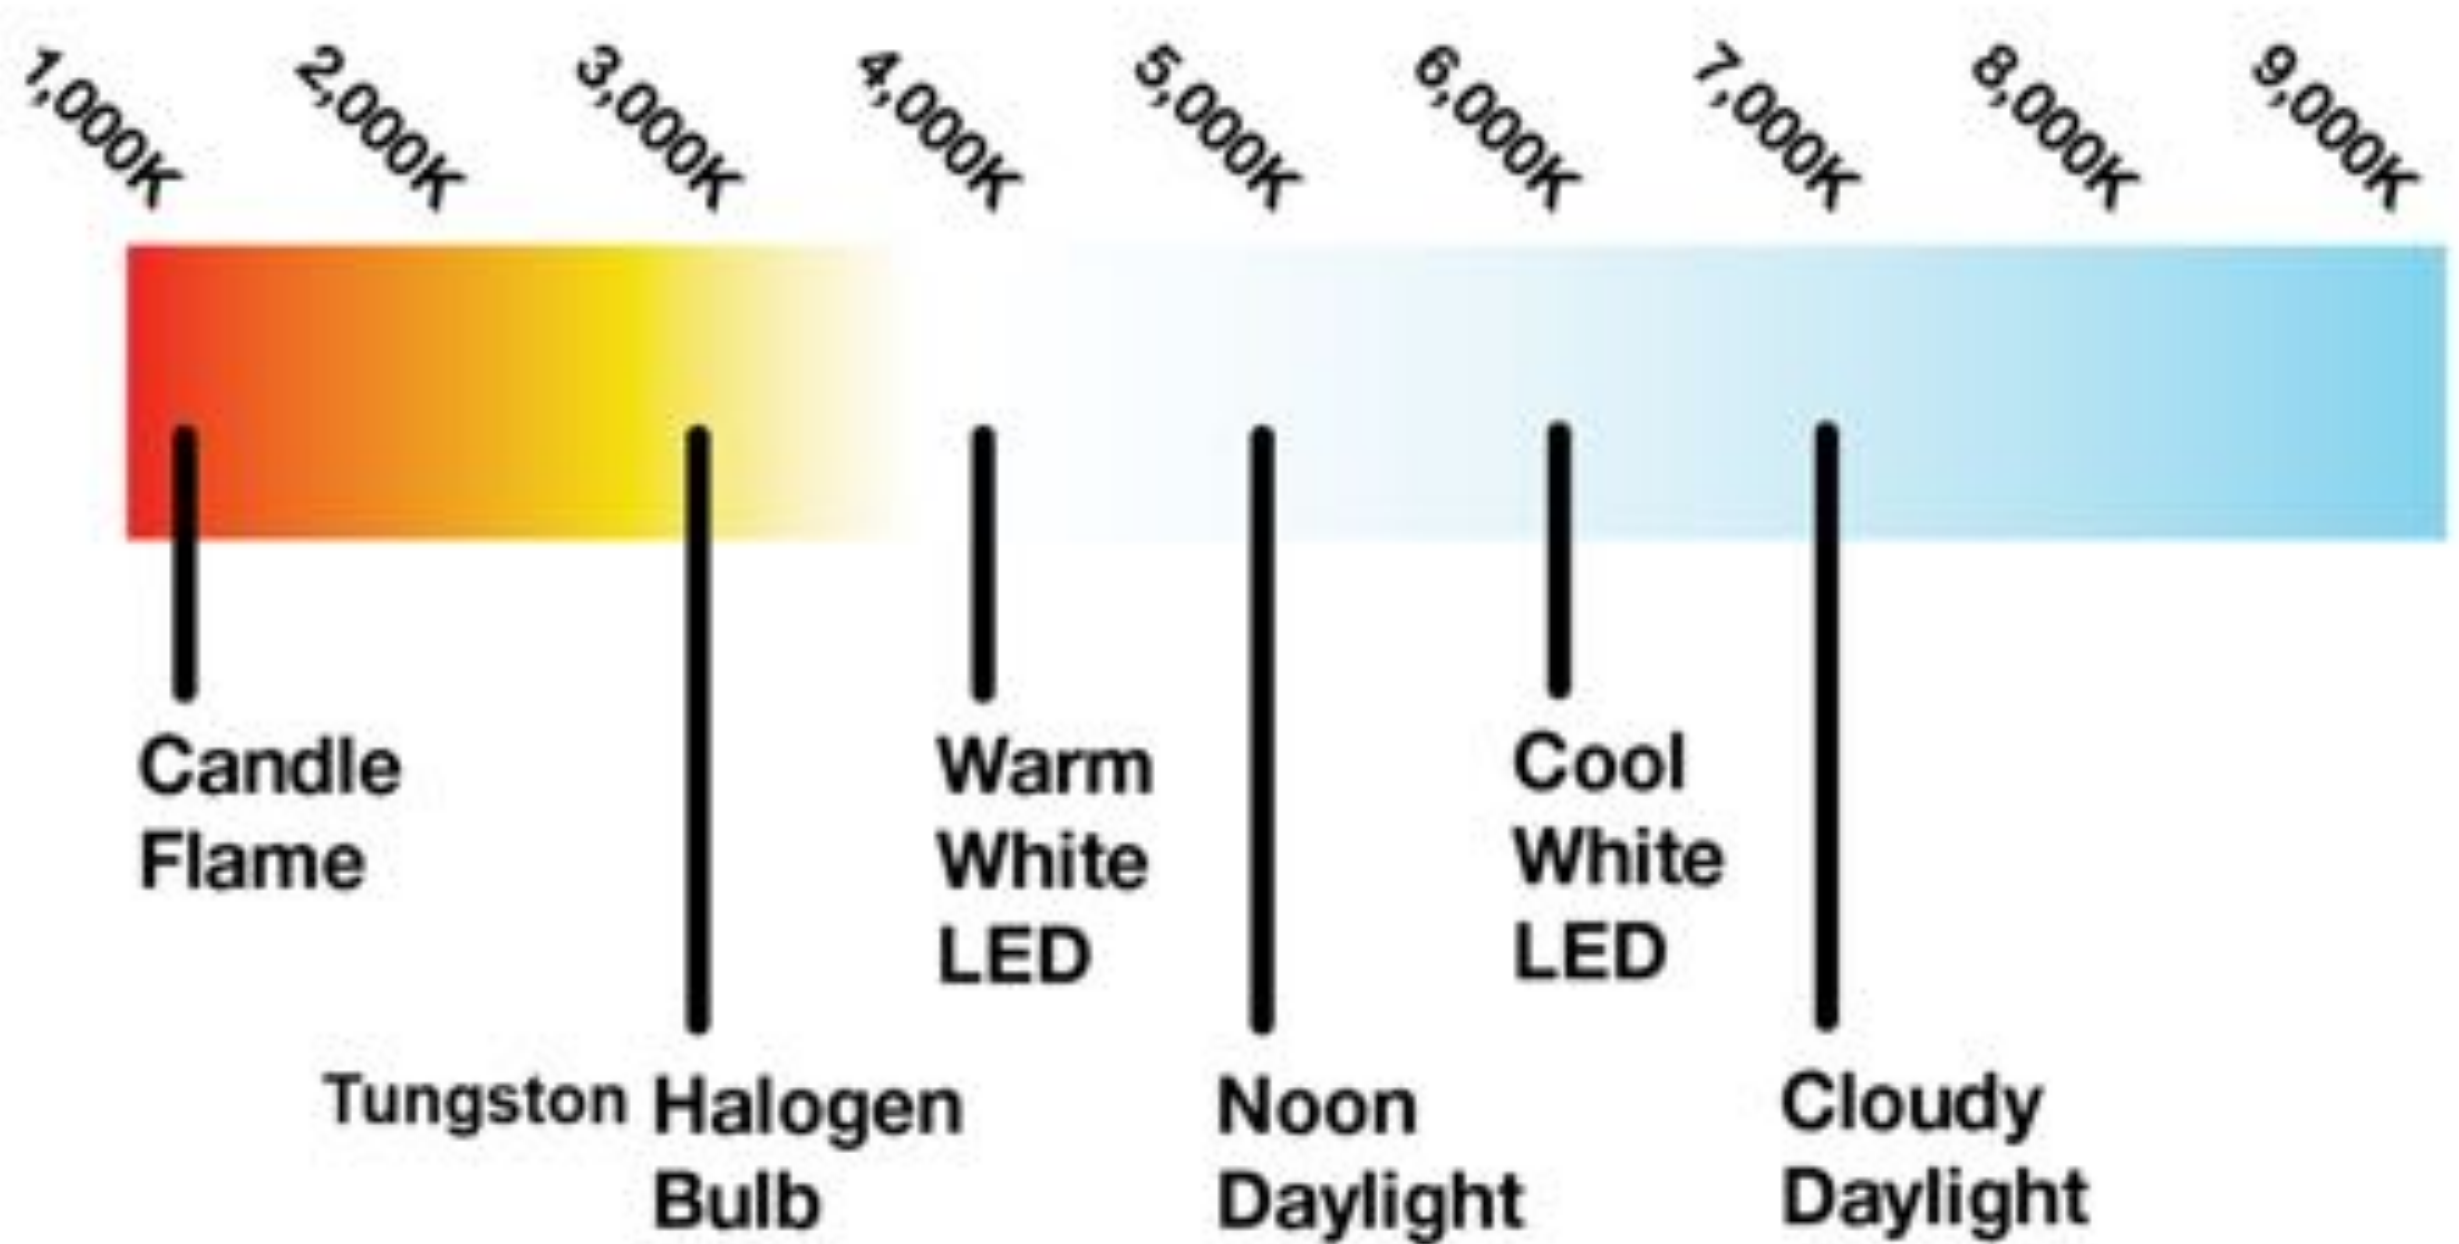

so if yr  is yr best friend...

a tripod is yr second best friend. befriend a tripod today.

[white balance]

Color Temperature Scale (°K)

1 Press the <AF-WB> button. (ⓘ6)

2 Select the white balance setting.

- While looking at the top LCD panel, turn the <DIAL> dial.

Display	Mode	Color temperature (Approx. K)
AWB	Auto	3000 - 7000
	Daylight	5200
	Shade	7000
	Cloudy, twilight, sunset	6000
	Tungsten	3200
	White fluorescent light	4000
	Flash	6000
	Custom*	2000 - 10000
K	Color temperature	2800 - 10000

* Set the optimum white balance manually to suit the lighting. (p.62)

ITP'S LIGHTING:

daylight
tungston
white led

the lowell kits are 💡 light
& more powerful

but:
time intensive
get really hot
can easily 🔥

DO NOT touch the
bulb w/o gloves even when cold

Neewer lights are white led
quick && dirty illumination

yr picture will look like this is set to:

windows == daylight

set to: 

set to: 

set to:
white led lights

white balance set incorrectly in different temperatures

Tungston / Halogen lights

the better yr exposure && white
balance the less time you will spend
in post == 💡

where is all this stuff on the camera?

Canon Mark III Manual

Cool. thx.
